## DETAILED ACTION

### *Withdrawal of Allowable Subject Matter*

The indicated allowability of claim 2 is withdrawn in view of the newly discovered reference(s) to MORRIS, Jr. et al. Rejections based on the newly cited reference(s) follow.

### *Claim Rejections - 35 USC § 102*

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-3,6 and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by US Patent #5,328,406 to MORRIS, Jr. et al. In reference to claims 1 and 2, MORRIS, Jr. et al. discloses a molded gutter section including a liquid passage (16), an air flow passage (62,64) adjacent thereto, and a gutter wall (GW) separating the liquid (16) and

air (62,64) passages. Regarding claim 2, the air flow passage (64) is located partially below the bottom wall of the gutter. In reference to claims 3 and 6, the air flow passage

Art Unit: 3635

comprises multiple linear air flow passages (62). Regarding claim 11, the gutter wall (GW) is directly between the liquid (16) and air (64) flow passage.

***Claim Rejections - 35 USC § 103***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim 5 is rejected under 35 U.S.C. 103(a) as being unpatentable over US Patent #5,328,406 to MORIS, Jr. et al. As detailed above, MORRIS, Jr. et al. discloses the basic claimed gutter except for explicitly detailing non-linear air flow passages. The applicant has shown no criticality in linear and non-linear air flow passages, and as such, linear air flow passages are art recognized equivalents to non-linear air flow passages. Thus, it would have been obvious to one having ordinary skill in the art at the time the invention was made to select either linear or non-linear air flow passages whichever is suitable for the use intended as an obvious matter of design choice.

***Allowable Subject Matter***

Claims 7-10 and 12 are allowed.

***Response to Arguments***

Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***
